ABOUT THE POSITION:

Grace International Language Institute is a China based educational institute that trains students in the linguistic, cultural, and social skills they need in order to succeed in western education systems.

GRACE first opened in response to the alarming suicide rates among Chinese teenagers caused by the intense pressure put on them by both the education system and their families to perform well. GRACE's vision is to remove schoolchildren from the traditional Chinese education system and help them transition into Canadian high school and university. It is GRACE's desire to provide our students with a loving environment in which to learn, explore and grow as healthy individuals.

Unfortunately, Chinese children are often subjected to stress and pressure from a shockingly young age. In order to alleviate some of that stress and expose parents to alternative forms of education, GRACE also runs programming for young children aged 3-6 and 7-10.

GRACE is currently looking for a passionate ECE teacher who can run our early years programs. Our desire is for a teacher who models Christ-like, unconditional love and life, and who is prepared to invest in the school's community, building a place where students can belong, play, and cooperate. The focus of these programs is to give children an environment in which they can develop cognitively through play-based learning and natural exploration, as well as improve their language skills in an immersive English environment.

PROVISIONS:

GRACE will provide teachers with:

- Competitive salary
- Housing
- Assistance with visa paperwork and travel documents
- International travel reimbursement upon completion of contract
- Yearly bonus
